- Proactiveness & Responsibility at Work

LANGUAGES

- Vietnamese (Fluent)
- English (Basic)

PROFILE

I am a recent Software Engineering graduate with a strong foundation in web development and database management. Skilled in HTML, CSS, JavaScript, and SQL, with a keen ability to learn new technologies quickly. Seeking an entry-level developer position to apply my skills and contribute to impactful projects while growing professionally.

WORK EXPERIENCE

FPT University

2021 - PRESENT

Software Engineering Student

- Recently graduated and currently awaiting the official degree issuance from the university.
- Gained solid knowledge in software development, database management, and teamwork through 4 years of academic study.
- Successfully completed multiple group projects, applying agile methodologies, version control with Git, and collaborative problem-solving.
- Participated in a notable project funded by the university for further development, which is now in trial operation stage.
- Acquired skills in troubleshooting and performing basic computer repairs, including hardware replacement, software installation, and system optimization.
- Proficient in Microsoft Office applications (Word, Excel, PowerPoint) for documentation, reporting, and presentations.
- Developed the ability to work effectively under deadlines, adapt to changing requirements, and communicate clearly with both technical and non-technical team members.
